Shocking Policies Exposed

Lib Dems for Pornographers

The violence of online pornography is staggering. Over 90% shows women, usually teenage girls, being abused, often by gangs of men. This is already banned in porn *videos*.

But the Lib Dems see the consumption of this porn as a right and its making a choice – even for our children.

YES to 16 year old ‘Porn Stars’

Until 2017, Lib Dem policy was that 16 year olds could be used in pornography.

NO to Protecting Kids from Porn

Most children have viewed abusive porn by 14. 10% of 12-13 year olds are addicted. But the Lib Dems think internet porn ‘opt in’ and age verification is ‘extreme’ and ‘illiberal’.

YES to Abuse Porn

The Lib Dems see any attempt to reduce the abuse in online porn (already illegal in porn videos) as ‘the act of a dictator’.

YES to Pornographers as MPs

The party welcomes pornographers like Anna Span, selected as an MP candidate. And Michelle Gent, former Lib Dem Councillor, who used local party HQ to recruit for porn.

‘A Rational Approach to Harm Reduction’

Lib Dems for Prostitution

**Sex work is 'fun'
and 'rewarding'**

Lib Dem Policy Paper 126

Prostitution is probably the most abusive industry in the world. 70% of women in it were abused as children, 50% started when homeless. Once in it 50% have a drug dependency, 70% have post traumatic stress disorder, 90% want to get out.

But the Lib Dems seem intent on massively expanding the sex industry by 'decriminalising' pimps and punters. Of course, this is heavily lobbied for by the powerful sex trade. But it has proven disastrous in every country that has tried it.

Aims of the Policy

**Transactional Sex
Should Be No
Different to Sex**

YES to Pimps as Business Men

According to the Lib Dems, pimps and brothel keepers are sex 'workers', who merely 'manage' the women they control.

YES to Policies from Traffickers

The Lib Dem's plan to 'decriminalise' pimps and punters, not just the women they control and use, is aggressively pushed by known pimps and even jailed sex traffickers.

All these policies can be seen in Lib Dem Policy Paper 126

WHY Have You been Sent This?

This information leaflet has been sent to you by Not Buying It. We are a non-political human rights group. And we think voters need to know *what* are voting for when they vote Lib Dem. After all, these are not policies the party widely publicises.

WHAT Can You Do?

This May, ask your Lib Dem representatives to urge the party to rethink these policies.
